I'm writing to express my support for the design guidelines that are being presented on March 15th. I am a multi family developer and was involved in the PAG that led to the current proposal. The intent of the program to work toward better design (amongst other virtues) while providing flexibility to the applicant is evident in the final version of the proposal and I think it would be a benefit to the City of Tacoma in the long run, particularly if the scope of the rules do not increase in scope over time.

- Paul
