What is the need?

• 40% of Tacoma households “cost burdened”
• Housing costs rising faster than incomes
• Low and moderate incomes most affected
• Limits access to opportunities
Tacoma’s growth vision

Growth Target: 54,741 housing units by 2040

- Primarily multifamily, in Centers
- 75% of residential area is exclusively single-family detached
- Limited area for mid-range density
- Limits housing choices in some areas

A state and regional conversation
Market-based development is part of the solution

**Diverse Housing Types** *(1.8)* Encourage more diverse types of housing development through relaxed land use standards, technical assistance, and financial incentives.

- Increases housing development capacity
- “Naturally occurring” affordability
- Middle range of housing types

**Inclusionary Zoning** *(1.2)* Modify inclusionary housing provisions to target unmet need and align with market realities.

- Increases housing development capacity
- Dedicated affordability in exchange for incentives/bonuses
- Higher density projects
Scope of work

1. Broad equitable communication strategy

2. Understanding current circumstances
   - Evaluate effectiveness of existing policy tools
   - Capacity analysis and building trends
   - Characterizing housing needs

3. Developing proposals to meet City goals
   - Meet housing affordability and choice needs
   - Increase equity & access to opportunity (displacement risk)
   - Tailor proposals to market conditions
   - Urban design and neighborhood characteristics
   - Utilities, infrastructure, transportation, services
   - Potential near-term changes (e.g., legislative direction)

4. Implementation strategies and priorities
Scoping comments themes (to date)

BIG PICTURE:
• Support (affordable) housing; missing middle; multifamily; density; supportive housing; public housing; help people experiencing homelessness; Inclusionary Zoning; home-ownership and rental opportunities
• Oppose change to single-family; oppose growth in already dense areas
• We need housing growth, done right

ISSUES:
• Impacts to/adequacy of services; utilities; parking; transportation; schools
• Density; height; scale; changing “character”
• Urban design; green space; green building
• Equity: Historic inequities; displacement; who does growth benefit?
• Permit streamlining; reduce barriers; promote infill
• Rent control; rental/landlord relations; impacts to landlords
• Also need well-paying jobs in Tacoma

Outreach methods
• Public notice
• Social media
• Coordination
• News release

Input
• Listen, esp. to people facing challenges
• Networking opportunities
