SPECIFICATION NO. TW20-0285F**

GENERAL INFORMATION

1. BACKGROUND

Tacoma Public Utilities (TPU), Water Division (Tacoma Water) is soliciting bids to establish a contract with a qualified vendor to supply aluminum chlorohydrate for drinking water treatment.

Aluminum chlorohydrate is a water treatment chemical used by Tacoma Water at its Green River Filtration Facility. The estimated annual usage is shown on the Bid Proposal Sheet. These are estimated quantities only and do not guarantee a specific volume or dollar amount. Other City departments may purchase from the awarded vendors at the same pricing listed in the Bid Proposal Sheet, by mutual consent to establish their own contract and/or purchase order.

Throughout this specification, any reference to “water treatment chemical” or “chemical” shall apply to the aluminum chlorohydrate to be delivered.

2. CONTACT

For all general purchasing questions or technical questions, contact Alex Clark, Senior Buyer, at aclark3@cityoftacoma.org. All technical questions will be forwarded to the department’s project coordinator.

3. PRE-BID MEETING

No pre-bid meeting will be held.

4. CONTRACT TERM

The successful bidder shall be awarded a one-year contract for calendar year 2021, for the purchase, delivery, and offload of aluminum chlorohydrate. The contract period shall be January 1, 2021 to December 31, 2021. There are no contraction renewal options.

5. ACCEPTANCE/ REJECTION OF BID PROPOSALS

The City reserves the right and holds at its discretion the following rights and options:

- To waive any or all informalities
- To seek clarification to bid submittals
- To award one or more contracts from this specification
- To award by line item or group of line items
- To not award one or more items
- To not award a contract
- To issue subsequent bids

6. RFB REVISIONS

In the event it becomes necessary to revise any part of the RFB, an addendum will be issued and posted to the City of Tacoma Procurement and Payables website.

7. CREDIT CARD ACCEPTANCE

The City of Tacoma is interested in your ability to accept a City procurement card for payment. If you checked the box on the Bid Proposal Sheet that states you can accept a procurement card, please provide as an attachment to your bid submittal, your credit card policy as well as any type of reporting capabilities you have (Level I, II, or III). Contact your merchant acquirer (provider of card processing equipment) to determine your level of reporting. Your company must be PCI – DSS compliant (secure credit card data management). Acceptance of the City of Tacoma's procurement card is not a requirement to submit a response to this solicitation.

8. RESPONSIVENESS

Bid proposals must provide ninety (90) days for acceptance by City from the due date for receipt of submittals. All bid proposals will be reviewed by the City to determine compliance with the requirements and instructions specified in this RFB. The bidder is specifically notified that failure to comply with any part of the RFB may result in rejection of the bid proposal as non-responsive. The City reserves the right, in its sole discretion, to waive irregularities deemed by the City to be immaterial. The City also reserves the right to not award a contract or to issue subsequent RFBs. Any contract value over \$500,000 is subject to Public Utility Board approval.

The final selections, if any, will be that bid proposal which, in the sole judgment of City, after review of all submissions, best meets the requirements set forth in the RFB. Any contract value over \$500,000 is subject to Public Utility Board approval.

9. TERMINATION OF CONTRACT

The City reserves the right to cancel the contract for any reason and/or without cause within ten (10) business days written notice to the vendor. See Paragraph 1.27 of the Standard Terms and Conditions.

10. BID EVALUATION

Award will be made to the lowest responsive, responsible bidder. Bidders are to provide a unit and total price for each line item. The line items will be compared amongst each bidder, including any payment discount terms offered twenty (20) days or more. The City may also take into consideration all other criteria for determining award, including evaluation factors set forth in Municipal Code Section 1.06.262 and described in 1.20 of the Standard Terms and Conditions.

All other elements or factors, whether or not specifically provided for in this specification, which would affect the final cost to and the benefits to be derived by the City will be considered in determining the award of a contract. The final award decision will be based on the best interests of the City.

11. PRICING

Unit or lump sum prices shall be all inclusive and bid as FOB destination, freight pre-paid and allowed. Surcharges of any type will not be allowed. Pricing shall be fixed throughout the term of the contract. The bid pricing shall include costs of bid preparation and servicing of the account.

Price increases shall only be considered during the contract period if detailed justification is provided to show an increase of over 20% in production or distribution costs for a given chemical in the time since the start of the contract, based on the following:

1. Any request for increase may be evaluated against various markets, including but not limited to the Consumer Price Index for All Urban Consumers (CPI-U) for the

U.S. City Average Index for all Items, 1982-84-100, unadjusted (<https://www.bls.gov/news.release/cpi.t01.htm>) for the comparable period; the Producer Price Index (<https://www.bls.gov/ppi/#tables>); state/federal regulations affecting production costs of the materials; volatile commodity market conditions; or minimum wage adjustments.

2. Any proposed price increase to contract line items must be beyond the control of the vendor and supported by written documentation from the manufacturer or wholesale distributor, indicating new higher cost adjustments in effect.
3. Price increases will be adjusted only to the amount of cost increase to vendor.
4. No adjustment will be made for vendor profit margin.
5. Tacoma Water may, at its discretion, reject a request for price increase and rebid the line item.
6. The vendor shall maintain deliveries at the original contract price for at least 45 days following a request for a price increase, to allow time for contract adjustments or rebidding.

12. SMALL BUSINESS ENTERPRISE PROGRAM INFORMATION (SBE)

The City's SBE program information is included in this specification. The Prime Contractor's Pre-Work Form is a post award form and does not need to be submitted with your submittal.

SPECIAL PROVISIONS

These special provisions cover the purchase of aluminum chlorohydrate for the City of Tacoma, Department of Public Utilities, Water Division (Tacoma Water). All pricing shall include the costs of bid preparation, servicing of accounts, and all contractual requirements.

The quoted prices shall be firm prices throughout the term of the contract.

1. ESTIMATED QUANTITIES

The Bidder shall base their unit price on the estimated quantity shown on the attached bid proposal sheet. This quantity is provided as an estimate only. The actual purchased quantities may increase or decrease as operating requirements dictate. Deliveries will be in accordance with the "Purchase Order Release" on an as-needed basis.

Tacoma Water reserves the right to increase or decrease the amounts of chemicals purchased to allow proper operation of its treatment systems (see Paragraph 1.32 of the Standard Terms and Conditions).

2. QUALITY

Fill access hatches on chemical trailers are required to be sealed. The seal number is required to be written on the bill of lading and faxed to the operator on duty prior to delivery.

Tacoma Water personnel may reject chemicals if they find the chemical product to be defective or unacceptable for use. Acceptance or rejection of chemicals will be solely at the discretion of Tacoma Water personnel and may be contingent on the results of onsite testing of samples. Any required samples shall be collected from the delivery vehicle by the driver. The samples will be considered representative of the lot. Tacoma Water reserves the right to spot-check water treatment chemical samples using the methods outlined in the American Water Works Association (AWWA) chemical standards or specialty testing. Unsatisfactory results may be grounds for rejection or termination of contract.

The Supplier agrees to be completely responsible for all costs and losses resulting from rejection of chemicals. The Supplier shall make arrangements for removal of rejected chemicals from Tacoma Water premises. The Supplier shall defend, indemnify, and hold harmless Tacoma Water from any claim, loss, or damage occasioned by rejected chemicals subsequent to verbal or written notice by Tacoma Water to the Supplier of such rejected chemicals. The Supplier shall make arrangements to remove rejected chemicals within a reasonable time after notice is given. The Supplier will replace any rejected chemicals within a reasonable time at no extra expense to Tacoma Water. If it is determined that the Supplier is at fault for chemical contamination of the chemical storage tanks or feed systems, Supplier shall be responsible for removing the contaminated chemical and cleaning the contaminated facilities at their own expense.

All chemicals provided shall be certified as suitable for contact with or treatment of drinking water by an accredited certification organization in accordance with National Sanitation Foundation (NSF) and American National Standards Institute (ANSI) Standard 60, Drinking Water Treatment Chemicals – Health Effects. Documentation demonstrating compliance with NSF/ANSI Standard 60 shall accompany Bidder's bid. Failure to comply with this requirement may, at the discretion of the City, be grounds to reject the bid and consider it nonresponsive.

During the contract term, should Tacoma Water determine there are other conditions that cause undue hazard to its customers or employees, Tacoma Water reserves the right to immediately purchase water treatment chemicals from other suppliers and may ask the contracted supplier to pay any additional costs incurred by Tacoma Water.

Upon award and prior to a purchase order being issued, the Supplier shall furnish a product data sheet and Safety Data Sheet for each chemical to be supplied. Upon request by Tacoma Water, the Supplier shall provide information regarding the origin of the chemical to be supplied and documentation of the steps the supplier takes to ensure the chemical conforms to AWWA and NSF/ANSI 60 requirements.

3. DELIVERY

Deliveries of water treatment chemicals shall be on an as-needed basis. For all deliveries to the Green River Filtration Facility (Bid Proposal Item 1), Tacoma Water personnel will schedule deliveries seven (7) days a week in accordance with the technical provisions for each chemical. All deliveries shall be completed between the hours of 8:00 a.m. and 5:00 p.m., Pacific Time. All deliveries to Hood Street Reservoir (Bid Proposal Item 2) shall be completed Monday through Friday between 8:00 a.m. and 3:00 p.m., Pacific Time.

Supplier shall acknowledge the criticality of timely deliveries of water treatment chemicals upon Tacoma Water's ability to provide safe drinking water to the public and shall make its best effort to ensure reliable deliveries. For each quarter hour that delivery is delayed beyond the scheduled delivery time, Tacoma Water may deduct liquidated damages as described in Section 6 of the Special Provisions. Deliveries may be rescheduled provided that the Supplier notify Tacoma Water at least twenty-four (24) hours prior to the scheduled delivery time and the delay will not affect the operation of the treatment facilities or staffing schedules. Failure to meet agreed-upon delivery time may result in a termination of the contract.

Supplier is expected to maintain sufficient chemical quantities on hand; deliveries shall be made within **four (4)** business days of order placement by Tacoma Water.

Supplier shall make its best effort to make deliveries within the required time period or arrange backup chemical supplies for Tacoma Water. If the Supplier cannot, for any reason, deliver chemicals ordered by Tacoma Water and an excessive delay results, Tacoma Water reserves the right to immediately purchase water treatment chemicals from other suppliers with the understanding that the contracted supplier may be asked to pay for any additional charges incurred by Tacoma Water. An excessive delay may be considered a total delivery time greater than four (4) business days from order placement or when Tacoma Water deems chemical storage volumes to be near unacceptable levels due to delivery delays.

The Supplier shall be fully responsible for the safe delivery of the chemical in accordance with all local, state, and federal laws as well as the requirements stated within these bid documents. The delivery vehicle shall meet all Federal and Washington State Department of Transportation requirements, including the proper display of hazardous material placards. The delivery vehicle shall contain at least two means of communications (e.g., mobile phone and two-way radio) capable of reaching the company dispatch center or local emergency response authorities.

Prior to the arrival of any deliveries, the Supplier must provide the following information for each delivery to the operator-on-duty at the applicable fax number or email address to be provided after contract award:

1. Name of Transportation Company
2. Name of Driver and Driver's License Number
3. Vehicle and Trailer License Plate Number
4. Seal Number(s) for sealed bulk deliveries

Upon arrival at the treatment plant, the truck driver shall present to onsite personnel the following items:

1. Bill of Lading, stating the following:
 - a. name of the chemical and brand name of the chemical, if any
 - b. percent strength of chemical
 - c. net weight and volume of the contents
 - d. name and address of the Supplier and/or manufacturer
 - e. lot code (e.g., rail car number or container number)
2. Machine-stamped Certificate of Weight and Measure, stating the following:
 - a. gross weight, tare weight, and net weight in pounds for the cargo trailer
 - b. truck number, trailer number, and transportation company name
 - c. time and date
3. Affidavit of Compliance, as specified in the Technical Provisions.
4. Certificate of Analysis, as specified in the Technical Provisions.

4. OFFLOADING LIQUID CHEMICALS

The transfer of liquid chemicals from the cargo trailer shall be the responsibility of the Supplier and the cargo trailer operator. The cost of offloading liquid chemicals shall be borne by the Supplier. Consideration shall be made for the Supplier's stated ability to easily offload liquid chemicals at the various treatment facilities. Inspections of the facilities are encouraged prior to submitting bids.

Supplier shall make deliveries of liquid chemicals in single-unit cargo trailers dedicated only to transporting the specific chemical ordered or food grade products. The cargo trailer shall be clean and free of residue that may contaminate the chemical or Tacoma Water's facilities. The trailer shall be properly cleaned according to the chemical manufacturer's standard practices for preventing contamination and maintaining NSF/ANSI Standard 60 certification for the chemical. If requested by Tacoma Water, Supplier shall be able to provide information about prior products transported in a trailer.

The cargo trailer shall be equipped with an appropriate air compressor to effectively and safely transfer chemical to the storage tank. The failure of the Supplier or cargo trailer operator to provide an operational chemical transfer system shall be considered adequate justification for rejection of deliveries. The cargo trailer unloading hose shall be at least 30 feet long with a quick-connect coupling compatible with the coupling located at the treatment facility. At the Green River Filtration Facility, liquid chemicals may be offloaded using Supplier's onboard air compressor or Tacoma Water's plant air system. If Supplier elects to use the plant air system, Tacoma Water shall not be responsible for any damage to the Supplier's equipment or for delivery delays.

Supplier must check in with the water treatment plant operator on duty and shall not hook up to the fill connections until instructed by the operator. Phone numbers to reach the water treatment operator on duty will be provided after contract award. Supplier may be required to wait for the results of any on-site sample testing before being allowed to offload chemical.

5. SPILLS

The driver of the delivery vehicle shall be trained to respond to uncontrolled chemical releases and shall possess appropriate personal protective equipment suitable for the chemical being transported. In the event of a leak or spill caused by the Supplier or cargo trailer operator during delivery, the Supplier or cargo trailer operator shall be responsible to limit the release of chemical; contain any spilled chemical; clean up any spilled chemical; clean up any contaminated facility, structure, or vehicle; and collect and dispose of contaminated material and pay associated costs. Tacoma Water may locate buckets at connection points to collect chemical leaks or drips; disposal of any collected chemical will be the responsibility of the Supplier.

If Supplier or the cargo trailer operator causes a leak or spill, Supplier or the cargo trailer operator shall immediately notify onsite Tacoma Water personnel and begin cleanup. If the Supplier or cargo trailer operator has not initiated a response within four (4) hours, the spill will be cleaned up under the direction of Tacoma Water personnel with all costs reimbursed by Supplier. Such costs shall include first response and clean-up fees, fines or penalties which may be imposed by regulating authorities, together with \$150.00 per hour for each hour that Tacoma Water personnel must be engaged in the clean-up process. Supplier agrees to pay and/or authorize Tacoma Water to deduct from any sum due or to be due to the Supplier such spill-related costs.

6. LIQUIDATED DAMAGES

It will be understood that time is of the essence in the Supplier's performance. For each quarter hour – up to seven (7) hours – that delivery is delayed beyond the scheduled delivery time, Tacoma Water may deduct the sum of \$20 from payment due to or to become due to the vendor for the delivered price of the chemical order. In the event of unexcused delays that extend beyond one (1) day and are not considered unavoidable, the Supplier agrees to pay and/or authorize Tacoma Water to deduct from any sum due or to be due to the Supplier the sum of \$100 for each calendar day that the material is not delivered beyond the times stipulated in Section 3 of the Special Provisions. This sum shall be considered not as a fine or penalty, but as liquidated damages, which the City will suffer by reason of the failure of the Supplier to perform and deliver treatment chemicals within the period herein fixed or such extensions of said period as may be allowed by reason of unavoidable delay. Any deduction or payment shall not in any way release the Supplier from any further or other obligations and liabilities with respect to the Supplier's performance of the entire contract.

7. PAYMENT

Payments will be made regularly against invoices submitted by the Supplier for chemicals delivered according to the rate based off the Supplier's bid submittal. The total price charged to Tacoma Water shall be the product of the unit price and the quantity delivered. No other fees or surcharges – including minimum delivery charges, fuel surcharges, or any other surcharges – shall be billed to Tacoma Water.

Sales tax will be applied to aluminum chlorohydrate purchases. Other applicable taxes and fees, such as the Washington State Hazardous Substance Tax, shall be the responsibility of the Supplier.

Each invoice shall be clearly marked with the identification number of the corresponding bill of lading. Units of measure used on invoices shall match those used on the bills of lading and the units used in the contract. Weight certificates shall be the basis for Supplier invoices, and invoice quantities shall reflect parameters indicated on the Certificate of Analysis. Invoices shall include the department name, identification number, order number, shipment date, delivery address, manufacturer product identification, quantity delivered, and contracted price.

Upon contract award, Supplier shall obtain current contact information from Tacoma Water for submitting invoices.

NOTE: Incomplete invoicing will not be accepted; vendor will be required to correct and resubmit.

Supplier shall not assign, subcontract, delegate or transfer any obligation, interest or claim to or under the Contract without the prior written consent of the City.

1.56 WAIVER

A waiver or failure by either party to enforce any provision of the contract shall not be construed as a continuing waiver of such provisions, nor shall the same constitute a waiver of any other provision of the Contract.

1.07.010 Policy and purpose.

It is the policy of the City of Tacoma that citizens be afforded an opportunity for full participation in our free enterprise system and that historically underutilized business enterprises shall have an equitable opportunity to participate in the performance of City contracts. The City finds that in its contracting for supplies, services and public works, there has been historical underutilization of small and minority-owned businesses located in certain geographically and economically disfavored locations and that this underutilization has had a deleterious impact on the economic well-being of the City. The purpose of this chapter is to remedy the effects of such underutilization through use of narrowly tailored contracting requirements to increase opportunities for historically underutilized businesses to participate in City contracts. It is the goal of this chapter to facilitate a substantial procurement, education, and mentorship program designed to promote equitable participation by historically underutilized businesses in the provision of supplies, services, and public works to the City. It is not the purpose of this chapter to provide any person or entity with any right, privilege, or claim, not shared by the public, generally, and this chapter shall not be construed to do so. This chapter is adopted in accordance with Chapter 35.22 RCW and RCW 49.60.400.

The Program Regulations adopted pursuant to this chapter shall state reasonably achievable cumulative annual goals for utilization of MWBEs and SBEs in the provision of supplies, services, and public works procured by the City. Cumulative annual goals for the participation of MWBEs and SBEs in City contracts shall be based on the number of qualified MWBEs and SBEs operating within the Tacoma Public Utilities Service Area. The dollar value of all contracts awarded by the City to MWBEs and SBEs in the procurement of supplies, services, and public works shall be counted toward the accomplishment of the applicable goal.

2. Application of Annual Goals to Contracts. The Program Manager shall consult with City departments/divisions to establish department/division specific goals for competitively solicited contracts in accordance with this chapter and the Program Regulations.

B. Waivers. City departments/divisions or the Program Manager may request to waive one or more of the requirements of this chapter as they apply to a particular contract or contracts. Waivers may be granted in any one or more of the following circumstances:

1. Emergency: The supplies, services and/or public works must be provided with such immediacy that neither the City nor the contractor can comply with the requirements herein. Such emergency and waiver must be documented by the department/division awarding the contract.

2. Not Practicable: Compliance with the requirements of this chapter would impose an unwarranted economic burden or risk to the City after consideration of existing budgetary approvals.

3. Sole source: The supplies, services, and/or public works are available from only one source, and subcontracting possibilities do not reasonably exist as determined by the finance purchasing manager.

4. Government purchasing. The City is a party to or included in a federal, state or inter-local government purchasing agreement as approved by the finance purchasing manager.

5. Lack of certified contractors: An insufficient number of qualified contractors exist to create utilization opportunities.

6. Best interests of the City: Waiver of goals is in the best interests of the City due to unforeseen circumstances, provided that said circumstances are set forth in writing by the requestor.

C. Review of Waivers. A waiver determination by the finance purchasing manager may be reviewed by the Board of Contracts and Awards (C&A Board). The C&A Board may also review a request to reduce or waive the utilization requirements based on Not Practicable or Best Interests of the City circumstances. The C&A Board shall determine whether compliance with such requirements would impose unwarranted economic burden on, or risk to, the City of Tacoma as compared with the degree to which the purposes and policies of this chapter would be furthered by requiring compliance. If the determination of the C&A Board does not resolve the matter, a final determination shall be made by the City Council or Public Utility Board, as the case may be.

(Ord. 28625 Ex. A; passed Nov. 5, 2019; Ord. 28141 Ex. A; passed Mar. 26, 2013; Ord. 27867 Ex. A; passed Dec. 15, 2009)

A. All submittals for a supplies, services, or public works and improvements contracts shall be evaluated for attainment of the MWBE and SBE requirements established for that contract in accordance with this chapter and the Program Regulations.

B. The determination of MWBE and SBE usage and the calculation of MWBE or SBE requirements per this section shall include the following considerations:

1. General. The dollar value of the contract awarded by the City to a MWBE or SBE in the procurement of supplies, services, or public works shall be counted toward achievement of the respective goal.

2. Supplies. A public works and improvements contractor may receive credit toward attainment of the MWBE and/or SBE requirement(s) for expenditures for supplies obtained from an MWBE or SBE; provided such MWBE or SBE assumes the actual and contractual responsibility for delivering the supplies with its resources. The contractor may also receive credit toward attainment of the MWBE or SBE goal for the amount of the commission paid to a MWBE or SBE resulting from a supplies contract with the City; provided the MWBE or SBE performs a commercially useful function in the process.

3. Services and Public Works subcontracts. Any bid by a certified MWBE and/or SBE or a bidder that utilizes a certified MWBE and/or SBE shall receive credit toward requirement attainment based on the percentage of MWBE and/or SBE usage demonstrated in the bid. A contractor that utilizes an MWBE and/or SBE subcontractor to provide services or public works

shall receive a credit toward the contractor's attainment of the respective requirement based on the value of the subcontract with that firm.

4. Brokers, Fronts, or Similar Pass-Through Arrangements. MWBEs and/or SBEs acting as brokers, fronts, or similar pass-through arrangements (as such terms are defined in the Program Regulations) shall not count toward the requirement attainment unless the activity reflects normal industry practices and the broker performs a commercially useful function.

C. Evaluation of competitively solicited submittals for public works and improvements and for services when a requirement has been established for the contract to be awarded shall be as follows:

1. When contract award is based on price. The lowest priced bid submitted by a responsive and responsible bidder will be reviewed to determine if it meets the requirement. An MWBE and/or SBE firm may self-count utilization on such bids if they will perform the work for the scope the requirement is based upon.

a. If the low bidder meets the requirements, the bid shall be presumed the lowest and best responsible bid for contract award.

b. any bidder that does not meet the MWBE and/or SBE requirements shall be considered a non-responsible bidder unless the bidder receives a waiver from the Program Manager or C&A Board.

2. When contract award is based on qualifications or other performance criteria in addition to price. Solicitations shall utilize a scoring system that promotes participation by certified contractors. The Program Regulations may establish further requirements and procedures for final selection and contract award, including:

a. Evaluation of solicitations for Architectural and Engineering (A&E) services;

b. Evaluation and selection of submittals in response to requests for proposals; and

c. Selection of contractors from pre-qualified roster(s).

(Ord. 28625 Ex. A; passed Nov. 5, 2019; Ord. 28141 Ex. A; passed Mar. 26, 2013; Ord. 27867 Ex. A; passed Dec. 15, 2009)

1.07.080 Contract compliance.

A. The contractor awarded a contract based on MWBE or SBE participation shall, during the term of the contract, comply with the requirements established in said contract. To ensure compliance with this requirement following contract award, the following provisions apply:

1. Any substitutions for or failure to utilize MWBE or SBEs projected to be used must be approved in advance by the Program Manager. Substitution of one MWBE or SBE with another shall be allowed where there has been a refusal to execute necessary agreements by the original MWBE or SBE, a default on agreements previously made or other reasonable excuse; provided that the substitution does not increase the dollar amount of the bid.

2. Where it is shown that no other MWBE or SBE is available as a substitute and that failure to secure participation by the MWBE or SBE identified in the solicitation is not the fault of the respondent, substitution with a non-MWBE or non-SBE shall be allowed; provided, that, the substitution does not increase the dollar amount of the bid.

3. If the Program Manager determines that the contractor has not reasonably and actively pursued the use of replacement MWBEs or SBEs, such contractor shall be deemed to be in non-compliance.

B. Record Keeping. All contracts shall require contractors to maintain relevant records and information necessary to document compliance with this chapter and the contractor's utilization of MWBEs or SBEs, and shall include the right of the City to inspect such records.

(Ord. 28625 Ex. A; passed Nov. 5, 2019; Ord. 28141 Ex. A; passed Mar. 26, 2013; Ord. 27867 Ex. A; passed Dec. 15, 2009)

1.07.090 Program monitoring.

A. An Advisory Committee shall monitor compliance with all provisions of this chapter and the related Regulations. The Program Manager shall establish procedures to collect data and monitor the effect of the provisions of this chapter to assure, insofar as is practical, that the remedies set forth herein do not disproportionately favor one or more racial, gender, ethnic, or other protected groups, and that the remedies do not remain in effect beyond the point that they are required to eliminate the effects of under utilization in City contracting, unless such provisions are supported by a Disparity Study.
