ADDENDUM NO. 01          DATE:  September 16, 2022

REVISIONS TO:
Request for Bids Specification No. PW22-0295N
Speed Limit Changes

NOTICE TO ALL BIDDERS:

This addendum is issued to clarify, revise, add to or delete from, the original specification documents for the above project. This addendum, as integrated with the original specification documents, shall form the specification documents. The noted revisions shall take precedence over previously issued specification documents and shall become part of this contract.

REVISIONS TO THE SUBMITTAL DEADLINE:

The submittal deadline remains the same.

REVISIONS TO THE PLANS:

Please remove Appendix D in its entirety and replace with Appendix D labeled Addendum 01.

NOTE: Acknowledge receipt of this addendum by initialing the corresponding space as indicated on the signature page. Vendors who have already submitted their bid/proposal may contact the Purchasing Division at 253-502-8468 and request return of their bid/proposal for acknowledgment and re-submittal. Or, a letter acknowledging receipt of this addendum may be submitted in an envelope marked Request for Bids Specification No. PW22-0259N Addendum No. 1. The City reserves the right to reject any and all bids, including, in certain circumstances, for failure to appropriately acknowledge this addendum.

ADDENDUM 01

APPENDIX D

SIGN POST MOUNTING SPECIFICATION
Perforated Square Steel Sign Posts and Anchors

30" HD 2 1/2" x 2 1/2" x 30" - 7 Gauge anchors

Specifications

- **Material.** Steel posts conform to ASTM A653, grade 50 standard specification for steel sheet, zinc-coated (galvanized) or zinc-iron alloy-coated (galvannealed) by the hot-dip process.
- **Finish.** The galvanized portion of the post conforms to ASTM A653, G90, structural quality, grade 50. The corner weld is zinc coated after scarfing. The galvanized post has a minimum of 0.5 millimeters of clear acrylic polymer coating applied as a rust preventative.
- **Holes.** All four sides feature holes 7/16" in diameter, (±1/64") on one-inch centers through the entire length of the post. Holes are on the centerline of each side, in alignment with and opposite of each other directly and diagonally.
- **Telescoping properties.** Finished posts are straight and have a smooth, uniform finish. All consecutive sizes of square tubes telescope freely and for not less than ten feet of their length without the need to match any particular face to any other face. All holes and ends are free from burrs.
