Information not included in said index will not be reviewed for confidentiality or as proprietary before release.

19. SPECIAL PROVISIONS

19.1 ESTIMATED QUANTITIES

The Bidder shall base their unit price on the estimated quantities shown on the attached price proposal sheet. These quantities are provided as estimates only. The actual purchased quantities may increase or decrease as operating requirements dictate. Deliveries will be in accordance with the "Purchase Order Release" on an as-needed basis.

Tacoma Water reserves the right to increase or decrease the amounts of chemicals purchased to allow proper operation of its treatment systems (see Paragraph 1.35 of the Standard Terms and Conditions).

19.2 QUALITY

Fill access hatches on chemical trailers are required to be sealed. The seal number is required to be written on the bill of lading and faxed to the operator on duty prior to delivery.

Tacoma Water personnel may reject chemicals if they find the chemical product to be defective or unacceptable for use. Acceptance or rejection of chemicals will be solely at the discretion of Tacoma Water personnel and may be contingent on the results of onsite testing of samples.

Any required samples shall be collected from the delivery vehicle by the driver. The samples will be considered representative of the lot. Tacoma Water reserves the right to spot-check water treatment chemical samples using the methods outlined in the American Water Works Association (AWWA) chemical standards or specialty testing. Unsatisfactory results may be grounds for rejection or termination of contract.

The Supplier agrees to be completely responsible for all costs and losses resulting from rejection of chemicals. The Supplier shall make arrangements for removal of rejected chemicals from Tacoma Water premises. The Supplier shall defend, indemnify, and hold harmless Tacoma Water from any claim, loss, or damage occasioned by rejected chemicals subsequent to verbal or written notice by Tacoma Water to the Supplier of such rejected chemicals. The Supplier shall make arrangements to remove rejected chemicals within a reasonable time after notice is given. The Supplier will replace any rejected chemicals within a reasonable time at no extra expense to Tacoma Water. If it is determined that the Supplier is at fault for chemical contamination of the chemical storage tanks or feed systems, Supplier shall be responsible for removing the contaminated chemical and cleaning the contaminated facilities at their own expense.

All chemicals provided shall be certified as suitable for contact with or treatment of drinking water by an accredited certification organization in accordance with National Sanitation Foundation (NSF) and American National Standards Institute (ANSI) Standard 60, Drinking Water Treatment Chemicals – Health Effects. Documentation demonstrating compliance with NSF/ANSI Standard 60 shall accompany Bidder's bid. Failure to comply with this requirement may, at the discretion of the City, be grounds to reject the bid and consider it nonresponsive.

Chemicals shall not be allowed to freeze during transit and shall not be delivered at a temperature in excess of 100 degrees Fahrenheit.

During the contract term, should Tacoma Water determine there are other conditions that cause undue hazard to its customers or employees, Tacoma Water reserves the right to immediately purchase water treatment chemicals from other suppliers and may ask the contracted supplier to pay any additional costs incurred by Tacoma Water.

Upon award and prior to a purchase order being issued, the Supplier shall furnish a product data sheet and Safety Data Sheet for each chemical to be supplied. Upon request by Tacoma Water, the Supplier shall provide information regarding the origin of the chemical to be supplied and documentation of the steps the supplier takes to ensure the chemical conforms to AWWA and NSF/ANSI 60 requirements.

19.3 DELIVERY

Deliveries of water treatment chemicals shall be on an as-needed basis. For all deliveries to the Green River Filtration Facility (Price Proposal Item 1), Tacoma Water personnel will schedule deliveries seven (7) days a week. All deliveries shall be completed between the hours of 8:00 a.m. and 5:00 p.m., Pacific Time. All deliveries to Hood Street Reservoir (Price Proposal Item 2) shall be completed Monday through Friday between 8:00 a.m. and 3:00 p.m., Pacific Time.

Supplier shall acknowledge the criticality of timely deliveries of water treatment chemicals upon Tacoma Water's ability to provide safe drinking water to the public and shall make its best effort to ensure reliable deliveries. For each quarter hour that delivery is delayed beyond the scheduled delivery time, Tacoma Water may deduct liquidated damages as described in Section 18.6 of the Special Provisions. Deliveries may be rescheduled provided that the Supplier notify Tacoma Water at least twenty-four (24) hours prior to the scheduled delivery time and the delay will not affect the operation of the treatment facilities or staffing schedules. Failure to meet agreed-upon delivery time may result in a termination of the contract.

Supplier is expected to maintain sufficient chemical quantities on hand; deliveries shall be made within **four (4)** business days of order placement by Tacoma Water.

Supplier shall make its best effort to make deliveries within the required time period or arrange backup chemical supplies for Tacoma Water. If the Supplier cannot, for any reason, deliver chemicals ordered by Tacoma Water and an excessive delay results, Tacoma Water reserves the right to immediately purchase water treatment chemicals from other suppliers with the understanding that the contracted supplier may be asked to pay for any additional charges incurred by Tacoma Water. An excessive delay may be considered a total delivery time greater than four (4) business days from order placement or when Tacoma Water deems chemical storage volumes to be near unacceptable levels due to delivery delays.

The Supplier shall be fully responsible for the safe delivery of the chemical in accordance with all local, state, and federal laws as well as the requirements stated within these bid documents. The delivery vehicle shall meet all Federal and Washington State Department of Transportation requirements, including the proper display of hazardous material placards. The delivery vehicle shall contain at least two means of communications (e.g., mobile phone and two-way radio) capable of reaching the company dispatch center or local emergency response authorities.

Prior to the arrival of any deliveries, the Supplier must provide the following information for each delivery to the operator-on-duty at the applicable fax number or email address to be provided after contract award:

1. Name of Transportation Company
2. Name of Driver and Driver's License Number
3. Vehicle and Trailer License Plate Number
4. Seal Number(s) for sealed bulk deliveries

Upon arrival at the treatment plant, the truck driver shall present to onsite personnel the following items:

1. Bill of Lading, stating the following:
 - a. name of the chemical and brand name of the chemical, if any
 - b. percent strength of chemical
 - c. net weight and volume of the contents
 - d. name and address of the Supplier and/or manufacturer
 - e. lot code (e.g., rail car number or container number)
2. Machine-stamped Certificate of Weight and Measure, stating the following:
 - a. gross weight, tare weight, and net weight in pounds for the cargo trailer
 - b. truck number, trailer number, and transportation company name
 - c. time and date
3. Affidavit of Compliance, as specified in the Technical Provisions.
4. Certificate of Analysis, as specified in the Technical Provisions.

19.4 OFFLOADING LIQUID CHEMICALS

The transfer of liquid chemicals from the cargo trailer shall be the responsibility of the Supplier and the cargo trailer operator. The cost of offloading liquid chemicals shall be borne by the Supplier. Consideration shall be made for the Supplier's stated ability to easily offload liquid chemicals at the various treatment facilities. Inspections of the facilities are encouraged prior to submitting bids.

Supplier shall make deliveries of liquid chemicals in single-unit cargo trailers dedicated only to transporting the specific chemical ordered or food grade products. The cargo trailer shall be clean and free of residue that may contaminate the chemical or Tacoma Water's facilities. The trailer shall be properly cleaned according to the chemical manufacturer's standard practices for preventing contamination and maintaining NSF/ANSI Standard 60 certification for the chemical. If requested by Tacoma Water, Supplier shall be able to provide information about prior products transported in a trailer.

The cargo trailer shall be equipped with an appropriate air compressor to effectively and safely transfer chemical to the storage tank. The failure of the Supplier or cargo trailer operator to provide an operational chemical transfer system shall be considered adequate justification for rejection of deliveries. The cargo trailer unloading hose shall be at least 30 feet long with a quick-connect coupling compatible with the coupling located at the treatment facility. At the Green River Filtration Facility, liquid chemicals may be offloaded using Supplier's onboard air compressor or Tacoma Water's plant air system. If Supplier elects to use the plant air system, Tacoma Water shall not be responsible for any damage to the Supplier's equipment or for delivery delays.

Supplier must check in with the water treatment plant operator on duty and shall not hook up to the fill connections until instructed by the operator. Phone numbers to reach the water treatment operator on duty will be provided after contract award. Supplier may be required to wait for the results of any on-site sample testing before being allowed to offload chemical.

19.5 SPILLS

The driver of the delivery vehicle shall be trained to respond to uncontrolled chemical releases and shall possess appropriate personal protective equipment suitable for the chemical being transported. In the event of a leak or spill caused by the Supplier or cargo trailer operator during delivery, the Supplier or cargo trailer operator shall be responsible to limit the release of chemical; contain any spilled chemical; clean up any spilled chemical; clean up any contaminated facility, structure, or vehicle; and collect and dispose of contaminated material and pay associated costs. Tacoma Water may locate buckets at connection points to collect chemical leaks or drips; disposal of any collected chemical will be the responsibility of the Supplier.

If Supplier or the cargo trailer operator causes a leak or spill, Supplier or the cargo trailer operator shall immediately notify onsite Tacoma Water personnel and begin cleanup. If the Supplier or cargo trailer operator has not initiated a response within four (4) hours, the spill will be cleaned up under the direction of Tacoma Water personnel with all costs reimbursed by Supplier. Such costs shall include first response and clean-up fees, fines or penalties which may be imposed by regulating authorities, together with \$150.00 per hour for each hour that Tacoma Water personnel must be engaged in the clean-up process. Supplier agrees to pay and/or authorize Tacoma Water to deduct from any sum due or to be due to the Supplier such spill-related costs.

19.6 LIQUIDATED DAMAGES

It will be understood that time is of the essence in the Supplier's performance. For each quarter hour – up to seven (7) hours – that delivery is delayed beyond the scheduled delivery time, Tacoma Water may deduct the sum of \$20 from payment due to or to become due to the vendor for the delivered price of the chemical order. In the event of unexcused delays that extend beyond one (1) day and are not considered unavoidable, the Supplier agrees to pay and/or authorize Tacoma Water to deduct from any sum due or to be due to the Supplier the sum of \$100 for each calendar day that the material is not delivered beyond the times stipulated in Section 3 of the Special Provisions. This sum shall be considered not as a fine or penalty, but as liquidated damages, which the City will suffer by reason of the failure of the Supplier to perform and deliver treatment chemicals within the period herein fixed or such extensions of said period as may be allowed by reason of unavoidable delay. Any deduction or payment shall not in any way release the Supplier from any further or other obligations and liabilities with respect to the Supplier's performance of the entire contract.

19.7 PAYMENT

Payments will be made regularly against invoices submitted by the Supplier for chemicals delivered according to the rate based off the Supplier's bid submittal. The total price charged to Tacoma Water shall be the product of the unit price and the quantity delivered. No other fees or surcharges – including minimum delivery charges, fuel surcharges, or any other surcharges – shall be billed to Tacoma Water.

Fluorosilicic acid invoices shall not include sales tax. Fluorosilicic acid meets Washington State sales tax exemption criteria. A copy of Tacoma Water's Washington State Department of Revenue Reseller Permit will be provided to the successful Bidder. Other applicable taxes and fees, such as the Washington State Hazardous Substance Tax, shall be the responsibility of the Supplier.

Each invoice shall be clearly marked with the delivery date and identification number of the corresponding bill of lading. Units of measure used on invoices shall match those used on the bills of lading and the units used in the contract. Weight certificates shall be the basis for Supplier invoices, and invoice quantities shall reflect parameters indicated on the Certificate of Analysis. Invoices shall include the department name, identification number, order number, shipment date, delivery address, manufacturer product identification, quantity delivered, and contracted price.

Upon contract award, Supplier shall obtain current contact information from Tacoma Water for submitting invoices.

If called upon, Supplier must respond to such requests within two business days or the timeframe set forth by the City in its request for clarification. Supplier's failure to respond to such a request may result in rejection of its Submittal.

1.20 EVALUATION OF SUBMITTALS

- A. The City of Tacoma reserves the right to award to the lowest and best responsible Supplier(s) delivering a Submittal in compliance with the Solicitation, provided such Submittals are reasonable and are in the best interest of the City to accept.  3. All other elements or factors, whether or not specifically provided for in a Solicitation, which would affect the final cost to, and the benefits to be derived by, the City, may be considered in determining the award of a Contract. - A. Payment methods include:
 - 1. EPayables (Payment Plus). This is payment made via a virtual, single use VISA card number provided by the City's commercial card provider. Suppliers accepting this option will receive "due immediately" payment terms. Two options for acceptance are available to suppliers. Both are accompanied by an emailed advice containing complete payment details:
 - a. Straight-through processing (buyer initiated). Immediate, exact payments directly deposited to supplier accounts by the City's provider bank; the supplier does not need to know card account details.
 - b. Supplier retrieves card account through the secure, on-line portal provided via email notifications sent by the City's commercial card provider.
 - 2. Credit card. Tacoma's VISA procurement card program is supported by standard bank credit suppliers and requires that merchants abide by the VISA merchant operating rules. It provides "due immediately" payment terms.
 - a. Suppliers must be PCI-DSS compliant (secure credit card data management) and federal FACTA (sensitive card data display) compliant.
 - b. Suppliers must be set up by their card processing equipment provider (merchant acquirer) as a minimum of a Level II merchant with the ability to pass along tax, shipping and merchant references information.
 - 3. Electronic Funds Transfer (EFT) by Automated Clearing House (ACH). Standard terms are net 30 for this payment method.
 - 4. Check or other cash equivalent. Standard terms are net 30 for this payment method.
- B. The City's preferred method of payment is by ePayables (Payment Plus) followed by credit card (aka procurement card). Suppliers may be required to have the capability of accepting the City's ePayables or credit card methods of payment. **The City of Tacoma will not accept price changes or pay additional fees when ePayables (Payment Plus) or credit card is used.**
- C. The City, in its sole discretion, will determine the method of payment for goods and/or services as part of the Contract.

- C. Personnel. If before, during, or after the execution of a Contract, Supplier has represented or represents to the City that certain personnel would or will be responsible for performing services pursuant to the Contract, then Supplier is obligated to ensure that said personnel perform said Contract services to the maximum extent permitted by law. Substantial organizational or personnel changes within Supplier's firm are expected to be communicated to City immediately. Failure to do so could result in termination of the Contract. This provision shall only be waived by written authorization by the City, and on a case-by-case basis.

During the course and performance of a Contract, Supplier will provide proof and maintain the insurance coverage in the amounts and in the manner specified in the City of Tacoma Insurance Requirements as is applicable to the services, products, and deliverables provided under the Contract. The City of Tacoma Insurance Requirements document, if issued, is fully incorporated into the Contract by reference.
- B. Failure by City to identify a deficiency in the insurance documentation provided by Contractor or failure of City to demand verification of coverage or compliance by Contractor with these insurance requirements shall not be construed as a waiver of Contractor's obligation to maintain such insurance.

1.50 INDEMNIFICATION – HOLD HARMLESS

- A. Supplier agrees to indemnify, defend, and hold harmless the City of Tacoma, its officers, agents and employees, from and against any and all liability which may accrue to or be sustained by the City of Tacoma for any claim, suit or legal action made or brought against the City for the death of or injury to persons (including Supplier's or subcontractor's employees), or damage to property involving Supplier or subcontractor(s) and their employees or agents, or for any other cause arising out of and in connection with or incident to the performance of the Contract, except for injuries or damages caused by the sole negligence of the City. Supplier shall comply with all federal, state, and City conflict of interest laws, statutes, and regulations. Supplier represents that Supplier presently has no interest and shall not acquire any interest, direct or indirect, in the program to which the Contract pertains that would conflict in any manner or degree with the performance of Supplier's services and obligations hereunder. 1.53 DUTY OF CONFIDENTIALITY

Supplier acknowledges that unauthorized disclosure of information or documentation concerning the Scope of Work hereunder may cause substantial economic loss or harm to the City except for disclosure of information and documents to Supplier's employees, agents, or subcontractors who have a substantial need to know such information in connection with Supplier's performance of obligations under the Contract. Supplier shall not, without prior written authorization by the City allow the release, dissemination, distribution, sharing, or other publication or disclosure of information or documentation obtained, discovered, shared or produced pursuant to a Contract.

1.54 DISPUTE RESOLUTION

In the event of a dispute pertaining to a Contract, the parties agree to attempt to negotiate in good faith an acceptable resolution. This provision does not limit the City's right to terminate.

1.55 GOVERNING LAW AND VENUE

- A. Washington law shall govern the interpretation of the Contract. The state or federal courts located in Pierce County Washington shall be the sole venue of any mediation, arbitration, or litigation arising out of the Contract.

Respondents providing submittals from outside the legal jurisdiction of the United States of America will be subject to Tacoma's City Attorney's Office (CAO) opinion as to the viability of possible litigation pursuant to a contract resulting from this Specification. If it is the opinion of the CAO that any possible litigation would be beyond reasonable cost and/or enforcement, the submittal may be excluded from evaluation.

Supplier shall not assign, subcontract, delegate or transfer any obligation, interest or claim to or under the Contract without the prior written consent of the City.

1.57 WAIVER

A waiver or failure by either party to enforce any provision of the contract shall not be construed as a continuing waiver of such provisions, nor shall the same constitute a waiver of any other provision of the Contract.

1.58 SEVERABILITY AND SURVIVAL

If any term, condition or provision herein or incorporated by reference is declared void or unenforceable or limited in its application or effect, such event shall not affect any other provisions hereof and all other provisions shall remain fully enforceable. The provisions of the Contract, which by their sense and context are reasonably intended to survive the completion, expiration or cancellation of the Contract, shall survive termination of the Contract.

1.59 NO CITY LIABILITY

Neither the City, its officials, staff, agents, employees, representatives, or consultants will be liable for any claims or damages resulting from any aspect of this procurement process.
